## **SPEAKER INTRODUCTION**

---

Our speaker grew up in an average size Catholic family. He is the 11th of 13 children from rural northwest Iowa. At age six something happened that changed him forever. He will tell you about it himself. But what that moment gave him was a front row seat to one of the most powerful lessons a mother ever taught her child.

Viola Crowley never sat her son down and gave him a speech. She taught him by the way she lived her life every single day. That no matter what happens to you, you always get to choose what happens next.

For 25 years he has been walking into rooms just like this one and bringing that lesson with him. Over 1.5 million people. Fortune 500 companies. Healthcare systems. Government agencies. And every single time he leaves the room different than he found it.

This is not someone who does inspiration. He does transformation. There is a difference. And you are about to feel it.

He lives by one motto. Enjoy life. This is not a dress rehearsal.

Please give a warm welcome and a round of applause for Dr. Tim Crowley.
